

HITACHI ELEVATOR (THAILAND) CO., LTD. congratulates the official launch of Siam Patumwan House and is proud to be part of this world-class building.

Siam Motors Group has officially unveiled the “Siam Patumwan House,” creating a vibrant new chapter in Thailand’s real estate industry. The event welcomed media representatives in a warm atmosphere.

Mr. Prakasit Phornprapha, President of Siam Motors Co., Ltd., led the executive team and key partners, including Glowfish, in announcing the mission of Siam Motors Group, which focuses on sustainable business expansion. Siam Patumwan House stands out with its world-class standards, including LEED (Leadership in Energy and Environmental Design), Fitwel, Smart Score, and Wired Score, reflecting its leadership in Grade A office space rental in the heart of Bangkok, seamlessly integrating environmental consciousness, health, and smart connectivity.

At the event, the media experienced the cutting-edge features of the “Siam Patumwan House” through a tour of the actual space, showcasing the latest technology and innovations from leading SMG brands, such as the Smart Building solution with facial recognition systems, **Hitachi's** Smart Application, and **Daikin's** intelligent air innovations. These advancements elevate modern living and working experiences, creating a space that truly connects a sustainable and intelligent future in line with the concept of ‘a home for the future of work.’
